## ENTRY STRATEGY · US

— **Free for people.** Meet copywriters where they are — Upwork, r/freelanceWriters, Substack — with the sample result, not ads. Metric: **2-week check-in retention**

— **Then sell the brain.** Employers citing AI in layoffs (120,136 YTD) and outplacement vendors (no APIs → white-label) run the same brain for their people

## HOW IT'S BUILT · WHERE CLAUDE WORKS

**Lifelog** notes · calendar · links → **Ontology** skills · state · goals →

**Decision brain** rules decide → **Claude** drafts the words →

**MCP server** any app plugs in

## HOW IT MAKES MONEY · PROFITABILITY

— **Brain API (B2B)** per seat / per call. Anchor: companies already pay outplacement vendors **$600–2,600 per laid-off employee** for a 3-month program · Intoo, RiseSmart list prices; our 12-month seat prices below it

— **Data-credit loop:** opt-in per category → de-identified aggregates licensed to HR & platforms → **credits back to users**. Raw data stays on device; B2C stays free

— **Unit cost = tokens + hosting.** Rules decide, Claude drafts once a week per user margin est.
