MARKET · US + CANADA · workers, official counts

TAM · jobs AI can already do much of BLS 2026		**53.2M**
SAM · jobs the US gov't expects to shrink because of AI est.		**11.8M**
SOM · of those, mid-career & able to pay est.		**3.0M**
Beachhead · creative & language freelancers		**704K**
First market · US writers & copywriters		**140K**

HOW WE EXPAND · three markets in order

1 · Start now
Copywriters · 140K · 65% freelance, pay themselves

2 · Months 3–9
Translators · designers · illustrators — one ontology per job

3 · Months 9–24
Office jobs via employers: admin 3.5M · support 2.7M · bookkeeping 1.5M

ENTRY STRATEGY · US

— **Free for people.** Meet copywriters where they are — Upwork, r/freelanceWriters, Substack — with the sample result, not ads. Metric: **2-week check-in retention**

— **Then sell the brain.** Employers citing AI in layoffs (120,136 YTD) and outplacement vendors (no APIs → white-label) run the same brain for their people

HOW IT MAKES MONEY · PROFITABILITY

— **Brain API (B2B) — paid per call.** No subscription: a partner app pays each time it asks the brain for a decision. Reference: companies already pay outplacement vendors **$600–2,600 per laid-off employee** for a 3-month program · Intoo, RiseSmart list prices; a year of calls stays below that

— **Data-credit loop:** opt-in per category → de-identified aggregates licensed to HR & platforms → **credits back to users**. Raw data stays on device; B2C stays free

— **Unit cost = tokens + hosting.** Rules decide, Claude drafts once a week per user margin est.
